**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

This Office Action is in response to the application filed on 10/15/2003. Claims 30-67 are pending.

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121 :

- I. Claims 30-67 drawn to a method of treating a female suffering from female sexual dysfunction comprising the step of delivering to a female a therapeutically effective amount of a neuropeptide Y inhibitor, wherein the female sexual dysfunction is female sexual arousal disorder, classified in class 514, subclass 183, 245.
- II. Claims 30-48 drawn to a method of treating a female suffering from female sexual dysfunction comprising the step of delivering to a female a therapeutically effective amount of a neuropeptide Y inhibitor, wherein the female sexual dysfunction is other than female sexual arousal disorder, such as hypoactive sexual disorder, orgasmic disorder, sexual pain disorder, classified in class 514, subclass 183, 245.

Inventions I-II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP 806.04, MPEP 808.01). In the instant case the inventions have different modes of operation, and different functions.

Art Unit: 1617

For example, the method of treating female hypoactive sexual desire disorder is different from a method of treating sexual arousal disorder.

Each method of treatment relates to a separate filed of medical technology having a separate field of search. The search for all female sexual dysfunctions is therefore an undue burden on the office. Note that the search involves both patent and non-patent literature. Therefore, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one or more claim remaining in the application. Any amendment of inventorship must be accompanied by request under 37 CFR 1.48(b) and by fee required under 37 CFR 1.17(i).

Because the above restriction/election requirement is complex, a telephone call to the applicant's agent to request an oral election was not made. See M.P.E.P Sec. 812.01.
